---

## **ABOUT:**

Motivated and passionate entry-level Front-end Developer eager to apply academic knowledge and practical skills in building modern web applications. Proficient in HTML, CSS, and JavaScript, with exposure to front-end frameworks like React.js and Tailwind css. Seeking opportunities to contribute to dynamic teams and gain valuable experience in the field of web development.

---

## **SKILLS:**

### Programming Language:

- HTML5
- CSS3
- Javascript
- Core Java

### Libraries & Frameworks:

- Tailwind css
  - Bootstrap 5
  - React
- 

## **PROJECTS:**

### Youtube Clone:

I developed a YouTube clone using React for the frontend and HTML/CSS for styling. The core functionality of the clone was achieved by integrating the YouTube API to fetch and display data.
